

# ARE YOUR REGULATING WHEELS PROVIDING CONSISTENT GRIP?

## Eagle's Hypergrip Rubber Matrix Technology delivers the ultimate in holding power.

- ▶ Manufactured using a 100% natural rubber bond matrix
- ▶ Provides consistent grain exposure
- ▶ Exceptional grip and consistent work-piece rotation

## Maximize the performance of your regulating wheels.

- ▶ Maintain critical tolerances longer
- ▶ More durable than synthetic bond systems
- ▶ Delivered within four weeks

## Manufactured from raw materials made to last.

- ▶ Constructed from premium virgin abrasive grain
- ▶ Cutting-edge finishes
- ▶ Unlike other manufacturers, Eagle Hypergrip Regulating Wheels contain NO synthetic rubber or recycled abrasive grain
